

Histology credit exam rules for DENTISTRY in the summer semester of the academic year 2024/2025

Credit exam

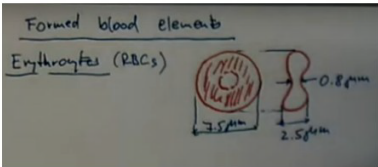

The following conditions have to be met in order to pass the credit exam:

1. Attend the practical courses - **no more than two classes missed are allowed** per semester.
2. **Complete individual assignments in the MOODLE course** <https://moodle.lfp.cuni.cz/course/view.php?id=579>
 - **Finish Reading Guides (RG) online before class.** RGs are individual assignments designed to help you understand key concepts and learn essential vocabulary before the class. You may drop **2 out of 7** RGs.
 - **Complete the quizzes** at the end of each chapter.
 - **Earn at least 100 points** from individual assignments (RGs and quizzes) in the MOODLE course. You can receive points by submitting your RGs (10 points each), completing the quizzes (up to 14 points depending on the number of questions) and by active participation in class.
3. **Pass individual tests** at the beginning of each class with at least **70% of the points**. The tests will require you to **draw histological schemes** according to the schedule provided at the start of the semester.
4. **Pass 3 general histology written tests in MOODLE course** <https://moodle.lfp.cuni.cz/course/view.php?id=579>
 - The topics of each test will include the general histology chapters, that will be taught during the practical classes.
 - Each test will be composed of a combination of “multiple-choice questions”, “single best answer” type questions and of virtual description of the histology slides. The time limit will be adjusted according to the number of the questions.
 - The minimal score to pass the test is **80 % of correct answers** in each test.
 - Students have only **3 attempts** to pass each test.
 - The tests have to be fulfilled during an exact period, which will be set in advance. The period is usually 2–3 weeks long.
 - The test will be considered failed:
 - if students don't reach the limit of 80 % of correct answers in any of the 3 attempts
 - or if students don't pass the test during the set period.
 - In case students fail any of the tests, **THEY WILL HAVE TO TAKE A FINAL TEST**. The topics of the final test will include all the general histology chapters. The number of questions will be higher than the total number of all questions from the 3 regular tests. The minimal score to pass the test will be **90 % of correct answers**. Students will have multiple attempts to pass the final test. Students, that passed all 3 regular tests during the semester, are not required to take the final test.

- If students do not pass the written tests, any of the 3 regular tests or the final test, they will not be able to proceed to the next part of the credit exam.

5. **Pass the final credit examination** at the end of the semester.

- The final credit exam consists of:
 - Drawing of 2 general histology schemes as required for the final exam.
 - Practical oral examination (identification and description of histological slides – student receives 2 slides. Students then identify, draw and describe tissues in the slides in front of an assistant from our department.
- Students have only 3 attempts to fulfill this requirement.
- If students do not pass the practical examination during the teaching period of the semester, but still have some attempts remaining, they can pass the credit exam during the examination period. The teacher may offer up to two special terms for that purpose. No other terms will be provided, especially not beyond the examination period.

<p>1. Attend the classes No more than two classes missed are allowed.</p> 	<p>2. Complete individual assignments in the MOODLE course</p> <p>a. Finish Reading Guides (RG) You may drop 2 out of 7 RGs.</p>  <p>b. Complete the quizzes at the end of each chapter.</p>  <p>c. Earn at least 100 points.</p>	<p>3. Pass individual tests at the beginning of each class</p> <p>The tests will require you to draw histological schemes. You need to get at least 70% of the points.</p> 
<p>4. Pass 3 general histology written tests in MOODLE course or pass the Final test in case you fail any of the 3 required tests.</p> <p>⊖ Test 1: cell+ epithelia</p> <p>The test will be active from Monday 3. 3. 2025 8:00 to Friday 21. 3. 2025 20:00.</p>	<p>5. Pass the final credit examination</p> <p>a. Draw 2 histological schemes. You need to get at least 70% of the points</p> <p>b. Identify and describe tissues in the histological slide.</p>
